- **688 Silicone** is 100% silicone with no fillers. Used for Glazing & Cladding Sealant is a one part neutral cure silicone sealant designed for a wide range of glazing, weathproofing and professional caulking applications. 688 will bond to form a strong weatherproof seal on most common building materials.

\* 24 tubes per box

- **795 Silicone** Building Sealant is a one-part, cold-applied, non-sagging silicone material that cures to a medium modulus silicone rubber upon exposure to atmospheric moisture.

\* 12 tubes per box

- **791 Silicone** Weatherproofing Sealant is a one-part, medium-modulus, elastomeric sealant designed for general weathersealing. It is a silicone formulation that cures to a flexible and curable silicone rubber building joint seal.

\* 24 tubes per box

- **995 Silicone** is a one component, self-priming, shelf-stable, neutral-cure, elastomeric adhesive specifically formulated for silicone structural glazing and exhibits excellent unprimed adhesion to most building substrates. This product has superior unprimed adhesion for structural glazing applications and has a movement capability of +/- 50%.

\* 12 tubes per box

## 3M VHB

The ultimate in Tape Bonding Strength, a conformable foam that provides excellent adhesion to mismatched surfaces.

- Seals against Moisture.
- Flexible and high expansive.
- Vibration and noise dampening.
- Eliminates mechanical fastening.
- Used in Curtainwall Glazing, Architectural Panel Bonding (Alucobond), Interior Fitout, Commercial Signage & General Manufacturing.

**From \$78.40<sup>+gst</sup>**  
per roll (33Mtr)

\*Price for 100 roll Order of 2.3mm x 12mm x 33Mtr

## Double Sided Mounting Tape

Double coated polyethylene foam tape designed for mounting, sealing, gasketing, sound and vibration damping applications. The highly conformable foam, coupled with a high performance rubber adhesive, creates a reliable bond on a wide variety of high and low energy surfaces, providing optimum performance and durability.
